

Think like a Computer Scientist!

Enhance

Practice like a Professional
To become Top R&D Engineer

To Enhance Your Capabilities

To help you be committed to your

Dreams & Goals

Sai Sampath

I became a Developer student club Leader. Organized three workshops and one programming competition.

Gireesh Kumar

I came to know that programming language is not a big issue when you have the logic and Universal Algorithmic design style.

Samson

These classes had completely changed my thinking about programming. Focus on the underlying algorithm instead of programming language & writing clean code are 2 main things that I learnt.

Sai Bhaskar

One of the main parts of training was not to concentrate on the tool & programming language, instead concentrate on the problem-solving, which had a great impact on my thinking.

Foundation Track

3 months

Goal is to make you capable of programming and understand current tools, technologies and practices in the industry and understand how to self-learn. Make you excited and enthusiastic in creating software solutions

Equip Sound Mental Models for Programming Concepts

A systematic approach to Problem-Solving

Primary focus of the Program

Principles of writing algorithms

System internals and program execution model

Exposure to cutting edge tools

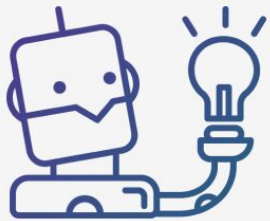

Professionals

₹ 24,999 ~~₹29,999~~ **Save ₹5,000**

Build your Ideas to Reality

No prior programming experience is required

I have learned to solve a problem
irrespective of the programming language

Suraj Varma

Sai Krishna

A word about this training
course **"Zero to hero"**

P. Manikanta

This training is at par
Industry standards
& no other institute
can provide this.

Sai Praveen

Learning has no limitations and
this will **make you motivated to**
learn indefinitely.

Vivekananda

Rohini has a **huge impact** on my career and
hundreds of other students **over the last**
10 years.

Why Students **Loved** Learning with us?

Enhance 

Kavitha

Tuned up not Just technical skills
but has also **helped me in my**
personality development.

PV Sai Srinivas

I can see myself as a
fearless coder, being able
to code in any language

Divya Sahithi

Rohini sir's training period is like a
seed to my software career

Package Ranges

Students who are placed received in the range of

19-31.5LPA

Our Alumni are now working at

amazon

Deloitte.
